

OF A HIGHER STANDARD

After moving to Missouri in 1993, we were introduced to Limousin cattle. We were immediately impressed with the cattle and breeders and have never considered another breed. Since day one, Misty Morning has been focused on developing Limousin and Lim-Flex cattle of a higher standard in terms of performance, cutting-edge EPDs and industry-leading genetics.

We utilize an aggressive AI and embryo transplant program to accomplish our goals. Sires used include: CJSI Creed, CELL Envision, CELL History Maker,

L7 Humdinger, COLE Cadillac, COLE Genesis, SSO Guns N Roses, TMCK Humvee, Wulfs Easy, Wulfs Edge, Wulfs Emprize, Wulfs Gallagher and Wulfs Gameboy; along with our herd sires: CELL Granite, CELL Game On and B-Bar Seratelli.

Located in the heart of cattle country in central Missouri, we welcome your call or visit anytime.

We feel richly blessed and recognize that God has said "the cattle on a thousand hills are mine".

MISTY MORNING LIMOUSIN

PUREBRED & LIM-FLEX

"Better Genetics for Bigger Gains"
