TMCK Santana brings a whole new look to the Purebred table as this outstanding young son of COLE Genesis gives you combinations of maternal power and marbling dominance along with depth of body and muscle stoutness. If you want to get into the next line of production cattle, think about Santana on Envision, Crown Royal and Heartland pedigrees.

OLIM **KEYSTONE** 23K

Black • Homo Polled • 75% Lim-Flex

CD: 13(20) BW: 0.3(35) WW: 75(35) YW: 112(50) MA: 26(10) CM: 9(10) SC: 0.85(60)

OLIM Keystone blew people away in Denver and now this great 75% son of Cable is on the market. Look over the outstanding phenotype and study the impressive performance, then note his impeccable EPDs and think about the ways a bull like this can help your calf crop. He is soft, soggy and loaded with growth. If you need any of those in your program, Keystone is the ticket.

Wulfs **KACTUS** 4841K

Red • Homo Polled • Purebred

CD: 8(80) BW: 1.8(65) WW: 94(1) YW: 143(1) MA: 31(3) CM: 5(70) SC: 0.75(30)
DOC: 15(25) CW: 44(4) RE: 0.92(85) YG: -0.4(1) MB: 0.13(4) \$MTI: 66.4

Wulfs Kactus was one of the top sellers at Wulf Cattle in 2023 and this tremendous performance son of Horton has the guts and performance breeders desire. This thick-made Purebred is negative for birth and top 1% for Marbling, combining performance, thickness and modern day maternal. Kactus should be a slam dunk for Envision, Cable and Crown Royal daughters. Think ahead, consider the options.

COLE Homerun is a former top seller from Coleman Limousin and this HOMO Polled and HOMO Black son of Envision has calves on the ground that make him the bull to breed to. Thick-made, sound and growthy—it looks like Homerun clears the bases on all counts. If you are looking for an Envision son that breeds performance, come to the plate.

Homerun is your man.
