TMCK Santana brings a whole new look to the Purebred table as this outstanding young son of COLE Genesis gives you combinations of maternal power and marbling dominance along with depth of body and muscle stoutness. If you want to get into the next line of production cattle, think about Santana on Envisions, Crown Royals and Heartland pedigrees.

OLIM Keystone blew people away in Denver and now this great 75% son of Cable is on the market. Look over the outstanding phenotype and study the impressive performance, then note his impeccable EPDs and think about the ways a bull like this can help. He is soft, soggy and loaded with growth. If you need any of those in your program, Keystone is the ticket.

ELCX High Time 065H ET was the show bull of 2022 and 2023. This great son of Kings Landing brings that awesome pedigree and phenotype to the open market.

If you are wanting to add style and balance to a set of females, High Time is the perfect choice. HOMO Polled and HOMO Black, this stylish young sire should sire great cattle for the tan bark and the replacement pen.
