

LIMOUSIN

2024

Production Sale

FEBRUARY 26, 2024 • 2:00 p.m.

At the Ranch - Flintoft, Saskatchewan

Welcome to our 2024 bull sale. We look forward with great anticipation to the future of the beef business. All signs are pointing to many profitable years ahead.

We can't go on without saying that 2023 was a challenge for many in our area. It was our fourth year of drought and people have had to get pretty resourceful! However, there is a commitment by all who remain to keep raising the best cattle possible. Limousin sired calves will yield and create more pounds per animal. This becomes even more important with a smaller cow herd. 55% meat doesn't make sense when you can be raising 65%. Tell a grain farmer that yield doesn't matter.

Here at JYF we continue to try and craft the best beef animals possible. Our goal is for our customers to raise cattle that marble and yield. We are in the red meat business.

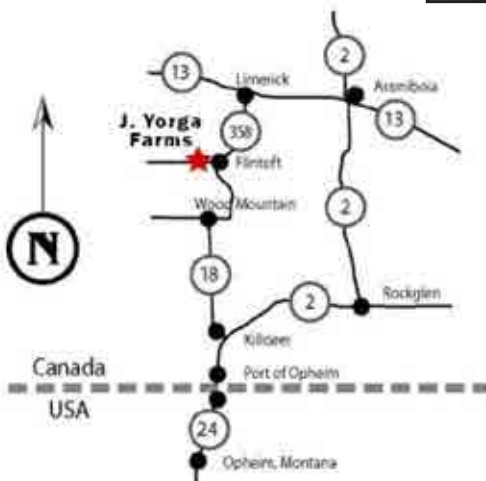

You will find power bulls to maximize growth along with calving ease bulls for heifers. We invite you to contact us or our sales staff to answer any questions you might have. Better yet, join us sale day for some JYF hospitality.

JYF Aged Bulls

Our bulls are not pushed to maximize yearling data. Instead they are managed to grow out over winter so as to provide a bull that will give you multiple years in the breeding field.

Due to our third year of drought in this area we had to get creative in our feeding regime. The bulls were fed a mix of dry hay, slough hay and kochia. We topped off their daily ration with approx. 15# of Masterfeeds Target Pellet. We feel the bulls are in very sound breeding condition and ready for action!

We have made every effort to provide you, our customer, with the best bull for your money. We calve on the range, in April and May. This provides a 2 year old bull that will cover more cows and save you money. We also have a fall program where we calve from Sept 1 to Oct 15. These bulls are basically big January yearlings and provide another age option.

No bulls are sold before the sale so you're picking from the entire calf crop. Due to their age, these bulls have gone through extra rounds of culling to ensure that they are as problem free as possible.

The JYF aged bulls are designed with you in mind. It is extremely important to us that you get the best bull to meet your requirements. We will assist in any way we can, including at the auction. If you are not totally satisfied with your selection, you will not own him.

Management Rating

We have been chute scoring docility at weaning since the system came out. We have found it useful, but that it did not adequately describe a bull's demeanor at sale time.

Bulls change as they get older and their testosterone levels increase. We see differences when working them to measure Yearling data, as well as sale preparation activities like picturing and video. In an effort to better describe a bull's disposition before they find out what they are made for; we have come up with the JYF Management Rating. We have scored them multiple times, on our own and talked about the scores together. We assure you that we have taken every opportunity along the way to weed out a potential problem bull. This rating is simply another way to differentiate one bull from another.

1. *Petable without halter breaking*
2. *Easily handled no matter the situation*
3. *Easy going. Very easily halter broke*
4. *Quieter than average, but slightly restless and may be stubborn during processing*
5. *Typical temperament. Manageable but nervous and impatient. Exits chute briskly*
6. *Restless and always moving away in the pen*
7. *Easily managed with other cattle, not so easily alone*
8. *Heads up with a big flight zone. Seems to be the first to run*
9. *May exhibit attack behavior when handled alone*
10. *Always very aggressive, pronounced attack behavior*

Herd Health Program

Prior to breeding - All cows and bulls are vaccinated with modified-live vaccine for: IBR, BVD (types 1 &2) PI3, BRSV.

Calves are vaccinated with modified-live vaccine for: IBR, BVD (types 1&2) PI3, BRSV, 8 way clostridial, haemophilus, pasturellia.

Bulls, cows and calves are treated for internal and external parasites.

Prior to weaning – All calves vaccinated (boostered) with modified-live vaccines for: IBR, BVD (types 1&2) PI3, BRSV, 8 way clostridial, haemophilus, pasturellia.

Bulls, cows and calves treated with pour-on parasite control.

Prior to Sale - All bulls are semen tested and given the first treatment of Fusogard.

All cows are tested for Johne's disease. We have a zero tolerance policy for positive tests. These animals and their offspring are removed from the breeding herd to insure the future health of your herd.

Zephyr is a HC Final Time son out of the great Walts Soloist. He has 172 Progeny registered. His bulls excel in performance and his daughters excel in milk production. Zephyr has progeny that excel in ribeye while maintaining marbling. This proven bull has many daughters in our herd that are at the top of production averages. For this reason, we flushed JYF Allure 52A to create lot 1.

ANDERS NICE'N EASY

- Old Yeller has made friends with everyone who has seen him. His excellent disposition forces you to move him out of the way to see other bulls.
- He is deep bodied and soft made to predict a very easy keeping individual.
- Yeller had the biggest ribeye of all the bulls in Denver 2024. He also has a big scrotal. He will work on many of today's females.
- JYF Allure 52A calves every year and brings in a calf that weans at the top of the group. We have several daughters in our herd that are following in her production footsteps. The mating of Zephyr and Allure has certainly created a bull that will leave his mark in the Limousin breed. People always remember Old Yeller.

Executioner has excelled in several traits. He improves disposition, marbling, and possesses an excellent foot structure. His progeny have been widely accepted in all parts of the beef industry.

His daughters are turning out to be excellent producers. We expect we will have many join the herd as great bull matrons.

Executioner's dam has been flushed successfully. We expect more great things from her in the future.

Executioner is the sire of Lots 2-12.

- Keg is the red version of his sire Executioner. He is moderate framed and thick. He had a yearling ribeye ratio of 128 while maintaining a marbling ratio of 108. Like his sire he has an excellent coat. Keg had many friends at Canadian Western Agribition.
- A full brother was campaigned successfully by Brent Black in Ontario. This was a very successful flush with brothers selling in this sale and females retained in the herd.
- Keg has a smooth head. He is the kind of bull that we strive to produce. He will raise calves that will be very easy to market.

- Member of our division winning pen of 3 bulls in Denver 2024. Kasbah was praised for his huge scrotal and excellent rump structure.
- He is a product of our transplant program. His dam earned the right to be flushed by having a weaning index of 110 with a very consistent production record.
- Kasbah is in the top 5% of the breed for milk, total maternal

We purchased Goldrush to give us above average performance that would compete with that of all breeds. Reports from across Canada, US and Australia confirm that his progeny excel in growth.

We are waiting for his first daughters to come into production but expect them to be powerful additions to herds throughout the land.

Goldrush is in the top 1% of the breed for weaning, yearling, total maternal and ribeye. He is in the top 2% of the breed for docility.

We expect his progeny to breed calves that grow and work in all aspects of the beef industry. Sire of lots 13-25.

- Kingbolt was a member of our division winning pen of bulls in Denver 2024. He was praised for his bone structure and above average hair coat.
- His dam produced JYF Jackson who in last year's sale sold to Ryan and Beth Hofer of Pincher Creek, AB. Jackson continues to be used in our herd and his dam has entered our transplant program.
- Kingbolt has a 107 ratio for ribeye while posting a whopping 147 index for marbling.
- Here is a power bull that can breed a lot of cows.

	BW	January 2023 WW	Limousin Breed Average YW	EPDs Milk	SC	DOC	REA	MARB
EPDs	2.0	63	91	23	0.6	12	1.14	-0.24

- Kent was an alternate to our Denver 2024 pen. He is a big power bull that is very correct in his structure.
- He has a weaning ratio of 115 and yearling ratio of 116. His carcass data is above average for both ribeye and marbling.
- Kent sports an excellent set of balanced EPD's. Combine this with a very eye appealing profile and you have the makings of a tremendous herd sire.

- Outcross to most bloodlines.
- big scrotal.
- Will add a little frame to progeny.

HC Overtime 972 is an old bull that helped improve the limousin breed. He calved easy. His daughters milked. He added scrotal to every mating. To top it off his progeny were extremely docile. There wasn't as big as emphasis on marbling in 1999 but he also helped improve that. We had a few old embryos that resulted in this bull.

	BW	January 2023 WW	Limousin Breed Average YW	EPDs Milk	SC	DOC	REA	MARB
EPDs	2.0	63	91	23	0.6	12	1.14	-0.24

Denver is a performance bull. His progeny excel in growth traits. He is a homo black bull that passes on performance to his progeny. Sons will sire calves that sell great in the fall. Sire of lots 32 and 33.

DENVER 857D

Progeny

- 3K is out of Pinnacle's Excite 70E purchased in their production sale.
- Very docile bull.

Freeman was a high selling bull for Symens Brothers of South Dakota. He is a moderate framed bull that calves easily. Several sons could be used on heifers. His daughters have excelled in production with beautiful udder design. Freeman sons can be used in multiple areas of production. Progeny sell as lots 34-47

We purchased semen on this proven bull after seeing how well his daughters are working for Symens Brothers in South Dakota. He has a 129 ribeye index while maintaining a marbling index of 114. Walk the Walk has real numbers that align with is EPDs. Only one in the sale this year but more on the way.

Terms & Conditions

Terms:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

Certificate of Registration:

Each registered animal will carry papers issued by the Canadian Limousin Association, unless otherwise indicated. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

Pedigree Estimates:

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

Health:

All animals in the sale have met all necessary health requirements.

Phone, Mail, Wire Bids:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

Guarantee:

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Limousin Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

Delivery:

Assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

Insurance:

We strongly recommend that insurance is purchased for full value.

Errors:

All announcements at sale time, written or oral, supercede any written material in the catalogue.

Load out:

No load out of cattle will be allowed until the conclusion of the sale.
