**FIVE FAMILY PREFIXES WORKING FOR YOU**  
**CJSL • CELL • ADLL • KVLN • KQLL**

Limousin Friends & Enthusiasts,

It is our pleasure to invite you to the 11th edition of our "Business Done Right" Bull Sale, Saturday, March 7, 2026, at our sale facility near Leon, Iowa. We are a family operation just north of Leon in the heart of cow-calf country in southern Iowa. Our Limousin and Lim-Flex seedstock operation began in 1979 and has grown to nearly 600-producing females.

Over the years, we have worked hard to create a quality product and share in our customers' success while always doing things the right way.

We have brought you our very best in this offering. The bulls presented to you here have withstood the rigors of our stringent selection criteria. This group of 59 bulls consist of both spring yearlings and 18-month-old bulls. Like in years past, the influence of our premier donors, elite herd sires, progressive A.I. program and no "shortcuts" approach is evident in the bulls we are offering.

As you study the offering and evaluate the bulls as they relate to your overall production goals, we ask you to keep in mind the true "value" of a herd bull.

While we as an industry continue to enjoy excellent cattle prices relative to historical averages, the spread in value of genetically superior calves is at an all-time high. Regardless of whether you sell your calves at weaning at a sale barn, run them as yearlings or retain ownership throughout the feeding phase, buyers are becoming more selective to the types of calves that generate premiums. Factor in the long-term value of the females you retain, and reasons to purchase superior herd bulls becomes evident.

We are confident the bulls in this sale have the inherent genetic ability to sire market topping calves based on the comprehensive data supplied to you in this catalog. So rest assured, the product at hand is exceptional and will come to you at various price levels. Bid with confidence.

It's our goal to make all business transactions with customers a pleasant experience. In addition, all cattle sold are fully guaranteed to the catalog in accordance with their respective breed association. Furthermore, if you would like to discuss our sight-unseen purchase program, financial arrangements or trucking plans we are happy to accommodate. As a reminder to both our existing and prospective bull buyers, we encourage you to check out our industry competitive "Linhart Bull Program" incentives that we have in place to stand behind this quality set of bulls.

We look forward to seeing you at the sale. Plan to join us for lunch. If we can be of any assistance to you prior to or during the sale, we have an open door policy and welcome all calls and questions. Don't hesitate to give us a call anytime.

Sincerely,

*The Linhart Family*

Linhart Limousin

Homozygous Polled Bulls

# FEATURED BULLS

*Lots 1-8*

It is with great pride we present this impressive group of featured spring yearling bulls. With our aggressive AI and embryo transfer programs, we continuously push the genetic envelope while maintaining the same common-sense approach our commercial customer's demand. Fresh pedigrees and breed leading EPDs may have value in the marketplace, but if the bulls themselves lack the convenience traits all cattlemen strive for, they are of little worth. It is you, our customers, who will measure the success of our program. As we continue to fine tune our program to one capable of ensuring our customers remain profitable based on part of the genetics we supply, your feedback is not only welcomed, but appreciated.

CELL Next Generation 5014N ET leads off the sale offering and does so with authority, bringing together power, balance, and the kind of presence expected of a true herd sire. Massive in his build yet still refined through his front one-third, this bull combines bold rib shape, extra muscle expression, and a commanding presence with the structural integrity required for long-term use. Sired by AUTO Lucky Guy 140D ET and out of a Riverstone Charmed daughter, his pedigree stacks two of the most influential phenotype-driven animals in the breed, both known for producing cattle with look, balance, and real-world functionality. Next Generation backs up his elite appearance with performance, posting an adjusted weaning weight of 804 and an adjusted yearling weight of 1,435, ranking at the top of his contemporary group for growth. His data profile includes favorable calving ease and a strong docility ranking, making him a versatile option for progressive programs focused on phenotype without sacrificing usability. Backed by generations of proven cow families that have consistently produced high-end show cattle and productive donors, Next Generation represents a rare opportunity to invest in a bull built to move a program forward, both in the pasture and on the pedigree page.

VL National Treasure 510N continues the momentum of this offering with a bull that blends elite performance, balance, and real-world usability. Big-bodied and powerful in his design, he combines extra rib shape, muscle expression, and structural correctness while maintaining an attractive, clean front. Sired by CELL Envision 7023E and backed by the proven VL Fanny Mae 811F cow family, his pedigree brings together generations of cattle known for consistency, longevity, and production value. National Treasure 510N backs up his phenotype with an impressive performance profile, posting an adjusted weaning weight of 839 and an adjusted yearling weight of 1,402. He ranks near the very top of the breed for growth traits, including Top 1% YW and Top 1% ADG, while also offering a favorable calving ease profile and strong docility. With elite indexes highlighted by a Top 1% \$TPI and Top 2% \$MPI, this Lim-Flex bull offers the rare combination of power, efficiency, and genetic value—making him a serious option for programs focused on performance-driven progress without giving up look or structure.

Nightfall is a Lim-Flex bull that blends modern show-ring influence with proven maternal genetics. He is sired by CELL Lasting Impression 3019L ET, a bull that continues to gain traction for producing cattle with eye appeal, balance, and structural integrity, while maintaining functionality for real-world use. His progeny are known for their clean lines, soundness, and consistency across environments. The dam side traces to the LSTO All About You 3817A cow family, rooted in Riverstone Charmed and generations of dependable Angus-influenced maternal strength. This lineage is evident in Nightfall's body shape, structural correctness, and overall usability.

# FALL BULLS

*Lots 9-29*

This group of stout, well-developed fall yearling bulls also excites us. Rest assured, these are not “left-overs” or “picked-throughs”. We provide a variety of genetic combinations in different age brackets as part of our comprehensive plan. A number of the same cow families and sire groups represented in our spring bulls are also found in their fall-born counterparts. Having developed these bulls with longevity in mind, we are confident they will stand the test of time and provide years of trouble-free service. Please note, ultrasound data for this group of bulls is actual, not adjusted. We are confident these bulls will sire the kind of calves buyers seek. In the event a problem arises with your bulls when you get them home, we hope you will call us first.

KQLL Midwest Route 4309M is a stout, functional Lim-Flex bull that brings proven performance genetics together in a practical, work-ready package. He is sired by CELL-TNGC Hits The Mark 2055H, a sire known for producing cattle with muscle, body, and real-world durability. This sire group has earned a reputation for consistency and efficiency in both seedstock and commercial settings. On the dam side, 4309M traces to the CELL 9419G cow family, influenced by Camden Yards and long-standing Linhart maternal lines recognized for longevity and reliability. Midwest Route offers solid structure, depth of body, and balanced performance, making him a dependable option for programs looking to add growth, substance, and functional cow-making genetics.

CELL Momentum 4358M is a homo polled Lim-Flex bull sired by TASF Heineken 405H ET and backed by a Dodge Ball daughter tracing to strong maternal genetics. He recorded nearly 600 pounds of adjusted weaning weight and 1,200 pounds at yearling, offering steady, practical growth from start to finish. Momentum provides a balanced calving ease profile with moderate birth weight and useful maternal backing, making him a functional option for commercial programs. A sound, workmanlike bull designed to sire consistent, easy-managing calves that perform in real-world conditions.

# PURCHASE INCENTIVE

## Program

- Guarantee...one-year unconditional breeding guarantee. We fully stand behind our product.
- Documentation...all bulls selling come complete with ultrasound, performance data, herd health & registration.
- Financing Program...50% down at time of purchase, balance due on delivery.
- Housing...complimentary development until April 15.
- Trucking...we offer free delivery to central points.
- Volume Purchases...buy 5 or more bulls, receive a 5% discount; 10 or more bulls receive a 10% discount.
- Sight-Unseen Purchase Program... you tell us what you're looking for, we'll do our best to meet those needs, and if you're not satisfied when you get your bull(s), you don't own them.

# LINHART LIMOUSIN

# SPRING YEARLING BULLS

*Lots 30-59*

We can't help but feel immense pride for this set of bulls. Our annual aim is to introduce a set of herd sire prospects that outperform the previous calf crop. The bulls showcased here have successfully met our rigorous selection standards. Progressive AI and ET plays a role in showcasing the influence of our premier donors and elite herd sires. We approach producing seedstock in a no "shortcuts" manner. We have full confidence in the genetic capacity of these bulls to sire top-quality calves and replacement females for the front pasture. We are happy to accommodate any discussions regarding our sight-unseen purchase program, financial arrangements, or trucking plans. We highly recommend you explore the incentives available in our "Linhart Bull Program." We're here to help, so feel free to reach out to us with any questions or concerns.

**BUYING ONLINE IS AS EASY AS 1, 2, 3...**

1. Create an account at [www.dvauction.com](http://www.dvauction.com) under the "register" tab.
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction—a DV representative will notify you once you have been approved.
3. Tune in for the sale and make your purchases! After the sale, contact the sale manager or owner to arrange transportation and payment. High speed internet is required for successful bidding. Be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

**PROXY BIDDING...**

If you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

**HAVING TROUBLES?**

During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at 402.474.5557.

CELL New Wave 5049N is a homo polled, homo black Lim-Flex bull sired by TASF Heineken 405H ET and backed by a productive Aviator-influenced female. He offers a balanced birth-to-yearling spread with a moderate birth weight and over 1,120 pounds of adjusted yearling performance, making him a practical option for programs focused on steady growth and consistency. His negative birth weight EPD and solid calving ease figures add flexibility, while strong carcass indicators—highlighted by marbling and ribeye—bring added value to his genetic package. A functional, well-made bull that fits operations looking for predictable, easy-managing cattle with added carcass merit.

CELL No Limits 5076N is a high-percentage, homo polled and homo black bull that blends performance, phenotype, and value-driven genetics. Sired by COLE Homerun 51H ET and backed by a Kings Landing daughter, he posted an impressive 742 lb. adjusted weaning weight and over 1,240 lb. adjusted yearling, ranking at the top of his contemporary group for growth. Numerically, he excels for weaning and yearling weight, Total Maternal, and the dollar indexes, highlighted by an outstanding \$MPI that positions him as a profit-oriented breeding piece. With added carcass merit and a strong ribeye figure, No Limits is built to sire cattle that push the scale down and add value at every stage.

CELL New Outlook 5140N is a homo polled, homo black Lim-Flex bull sired by TASF Heineken 405H ET and backed by a Camden Yards daughter with strong maternal roots. He posted an impressive 767 lb. adjusted weaning weight and a solid 1,200 lb. adjusted yearling, ranking near the top of his contemporary group at weaning. New Outlook offers a balanced genetic profile with practical calving ease, steady growth, and useful carcass merit. A sound, functional bull suited for operations wanting to add pounds and maintain a consistent, easy-keeping cow base.

CELL Nightfall II 5141N is a homo polled Lim-Flex bull sired by LFL Kash Card 2156K ET and backed by a productive Crossover daughter. He posted an outstanding 794 lb. adjusted weaning weight and over 1,280 lb. adjusted yearling, ranking near the top of his contemporary group for growth. Nightfall II blends strong weaning and yearling performance with added carcass value, highlighted by elite marbling and a high-ranking \$MPI figure. A stout, performance-driven bull designed to add pounds, carcass quality, and overall profitability to a wide range of operations.

# REFERENCE SIRE

The importance of quality herd bulls, be it in a commercial or seedstock operation, cannot be stressed enough. Herd bull decisions made today influence your program, either positively or negatively, for years to come through daughters retained in the herd.

At Linhart Limousin we have always believed in having the absolute best bull power available in the industry. As such, we have invested heavily over the years to ensure only the best sires walk behind our progressive AI and embryo program.

As you study the bulls offered for sale in this catalog, and as you look over the reference sire listing on the following pages, you will notice the positive influence bulls owned by Linhart or bulls carrying the Linhart moniker, are currently having on our program.

By becoming a Linhart Limousin customer, you are not simply buying a new herd bull, you are buying into our philosophy of continuously striving to improve the sire side of the breeding equation.
