MAGS Cable has some of the best calves we see, day in and day out. This OUTCROSS, HOMO B, HOMO P son of Applesseed has the depth of body, super structure and tremendous EPD profile the breed has been looking for. Marbling, calving-ease and milking ability give him a leg up in siring cattle that will grow and function. If you are tired of three channels, get Cable.

AHCC Hemi was the top seller at Hagers. This tremendous son of SAV Resource adds the 9066U cow into a total outcross package loaded with potential. A true beef machine, Hemi touts a thick-made, sound, soft package loaded with growth and complemented with marbling. If you want to power up your pedigree package with a really stout one, it's time to get a HEMI.

Floyd Mudhenkey comes with a memorable name and a host of calving-ease and maternal traits that should make him the great choice for first-calf heifers. His outstanding phenotype was on display in Denver where he went out of the Yards and onto the Hill as Division 1 Reserve Champion. This HOMO Polled purebred has the conformation and user-friendly numbers to work anywhere, remember Floyd Mudhenkey.
