Dear Limousin Friends,

My how times flies as we approach our 17th annual "Proof Of Progress" production sale. As we celebrate more than 25 years in the registered Limousin business we realize the friendships and fellow breeders we have met over those years mean the most to us.

We are quick to realize that the people that make up the team at P Bar S Ranch are just as valuable as the cattle. We are proud to have Elgin Elmore as general manager along with his very able crew of Derik Frazier and Gus.

The Little Ranch with THE Big Genetics was designed to be a source of the finest registered seedstock in the business. We want and desire for each and every client that purchases a PBRS-bred animal to appreciate the many years and resources we have put into creating the product. Our goal is for these cattle to go into the new buyer's herd and enhance their programs in the very best way possible. We hope that as you view this catalog you will appreciate the offering as much as we do.

This year's offering includes the best from our Limousin, Lim-Flex and Red Angus herds. Please do not hesitate to contact any member of the ranch or sale team with any questions you may have. Thank you for joining us. We look forward to seeing you October 29.

Sincerely,

Paul Sisemore

The imported sire is an outcross option to many of the prominent sire choices in the Red Angus breed. His sons advance structural integrity, performance and eye appeal. This bull's dam is the DAMAR 3363 Cedar Quest A322 female, a daughter of HXC Conquest 4405P. If you are searching for a herd sire prospect that can add pounds and growth, then you'll want to focus on this Red Six Mile Brando 666C son. Numerically, PBRS Brando 235 ranks in the top 14% for Yearling Weight, 17% for Weaning Weight and 30% for Milk. Phenotypically speaking, this herd sire prospect is long and flexible in his spine, powerful from end to end and his quality goes far beyond his incredible look.
