If not the best, clearly one of the top Rueshaw sons in the breed! His sire stack is an impressive Rueshaw x Shigemaru (Nikki) x Akiko. This is a complementary outcrossed pedigree and is compatible with most of the USA Akaushi population (No Big Al, Tamamaru, or Hikari in this bull). Additionally, XXX differs from his contemporaries in so much that there is no Kunisakae, Homare or Judo in his background. Rueshaw semen is extremely rare and if found regularly sells for \$4,000+ per straw! Secure genetics from one of his best sons now. About LAG RUESHAW'S XXX 2133F ET's dam, she is none other than Heartbrand Nikki, a direct Shigemaru daughter from Akiko and famous in her own right. She has been a prolific donor dam for years having produced 99 registered progeny and is still going strong today! Don't miss this rare opportunity to get outcross genetics backed by the leading Akiko maternal line!

Highlander can be considered an Akaushi breeding masterpiece. He is a double combination of two of the most genetically influential cows of the breed, Akiko and Marunami. They are featured on both sides of his pedigree! His sire, Come And Take It, is an H0518E son who has been a standout in his own right. H0518E is a Hikari son directly out of Marunami and was a superior performing bull for Heartbrand. The popularity and breeding value of Come And Take It is highlighted by his 241 registered progeny. Highlander's dam is the well-known Brook cow who is sired by breed legend Big Al. Brook's dam is the extremely popular, proven, brood cow Ringo who has 60 registered progeny. Ringo, in turn, is a Namimaru daughter of the original import cow, Marunami. Expect tremendous performance from Highlander progeny. With the focus on foundation genetics, his pedigree is one for the ages! Stored at Elgin Breeding Services in Elgin, TX.
